

## Description

The Tech Tools Series Workshop introduces various technology tools and how they can be used to facilitate teaching and learning, through various approaches of online learning, such as remote, self-directed, or blended.

This workshop seeks to equip and expand participants' capabilities and skills to use and leverage appropriate technology tools and apps to enhance existing teaching and learning materials and developing engaging content for online settings. Participants will also explore the use of technology tools and apps to facilitate collaborative learning among their learners.

The workshop will provide ample opportunities for hands-on practice through experiencing the use of several technology tools and apps.

## Duration

Total of 8 hours, comprising 2 x 4-hour sessions

## Programme Content

This programme will cover the following topics:

1. Digital tools for facilitation and assessment
2. Mobile learning in context
3. Micro-learning courseware development
4. Demonstration and hands-on practice of the tech tools, which may include:
  - Padlet
  - Canva
  - Lumen5
  - Voicemaker
  - Kahoot
  - Adobe Express
  - Google Classroom
  - Google Drive
  - Zoom

## Target Audience

For clinical teachers and educators who are keen to utilize technology tools and apps in course development and in instructional teaching.

The workshop is also applicable to administrators and operational staff who are developing interactive and engaging content and publicity materials for events.

## Learning Outcomes

At the end of the programme, participants will be able to:

1. Use a range of technology tools and apps to enhance and facilitate online teaching and learning;
2. Explore the diversification of learning delivery on digital platforms;
3. Develop engaging learning content for online settings using technology tools and apps; and
4. Facilitate collaborative learning using technology tools and apps

## Methodology

Methodologies used will include

1. Pre-programme self-directed learning
2. Classroom and online training
3. Group discussions
4. Hands-on practical sessions

All participants of the workshop are requested to have an existing project for application of learning. This may include a lesson plan, case study, topic or event.

## Training Capacity

20 participants per run

## About the Organiser

Officially established on 19 July 2002, the National Healthcare Group (NHG) College plays an instrumental role in facilitating the continuous learning and development of our workforce, as well as, promoting systems improvement and driving leadership development in NHG. NHG College collaborates with renowned institutions and industry partners to build the pipeline and collective capacities of our leaders, educators, healthcare professionals and staff to support NHG in serving and managing the health of our patients and the population.
