Online Training & Education Events: Disclaimer

This is an international online training and education event. You have been personally selected to attend the event and we request you do not forward the invitation to others. The event may be hosted off-shore and may include information on products and therapies and their safe and effective use which might not be approved in your country. Please review applicable product labelling for your country for indications and instructions for use prior to use of the product. You may not record, take screenshots, nor forward to others content provided during the event. To ensure that confidential patient information is not shared, you should only join the event where content cannot be viewed and/or overheard by others. At Medtronic, we are dedicated to protecting your privacy and safeguarding your personal data. We will not collect any personal data about you in the context of this event, other than your name, the institution to which you are affiliated, your role, and the email address you provided when you registered for the event. We will only use that information for proper management of this event and for compliance monitoring.
