

Description

This half-day workshop aims to equip Allied Health, Nursing and Pharmacy Educators with the knowledge and skills to effectively support your learners in difficulty.

The workshop will introduce the framework, diagnostic approaches and policies, as well as developing action plans to support your learners. Conducted in “flipped classroom” format, the session will devote time for discussions on the various approaches, techniques and policies in managing those in need.

Duration

0.5 day

Programme Content

This Programme will cover the following topics:

1. Introduction of the relevant Framework and Diagnostic Approaches
2. NHG Policies and your Roles
3. Development of Action Plans in Supporting Learners in Difficulty

Target Audience

Clinical teachers and educators, including Clinical Educator Leads (CELs) and Subject Leads from Allied Health, Nursing and Pharmacy

Learning Outcomes

At the end of the programme, participants will be able to:

1. Gain conceptual knowledge of diagnostic approaches and framework to investigate learners in difficulty, with a broad overview of management;
2. Discuss profession-related and HR policies relevant to managing learners in difficulty;
3. Apply framework and policies to approach learners in difficulty; and
4. Develop action plans in supporting learners in difficulty.

Methodology

Conducted in “flipped classroom” format, methodologies used in the session will include formal presentations, group discussions and activities.

The Learner in Difficulty

Training Capacity

30 participants per run

About the Organiser

Officially established on 19 July 2002, the National Healthcare Group (NHG) College plays an instrumental role in facilitating the continuous learning and development of our workforce, as well as, promoting systems improvement and driving leadership development in NHG. NHG College collaborates with renowned institutions and industry partners to build the pipeline and collective capacities of our leaders, educators, healthcare professionals and staff to support NHG in serving and managing the health of our patients and the population.
